|Bengkulu, Indonesia

PROFESSIONAL SUMMARY

Bachelor of Statistics graduate from Bengkulu University (GPA 3.30/4.00) with experience in data processing, validation, analysis, and management through roles at BPS Bengkulu City and the National Archives of the Republic of Indonesia (ANRI). Proficient in Microsoft Excel, SQL, RStudio, Python, Power BI, Tableau, and QGIS for data analysis, data visualization, dashboard and KPI development, report preparation, and spatial data processing. Experienced in handling large volumes of data and metadata with strong attention to detail, supported by good data management, reporting, administrative, and coordination skills.

EDUCATION

Universitas Bengkulu August 2021 – July 2025

Bachelor of Statistics | 3.30/4.00

Thesis: Application of Residual Bootstrap and Principal Component Analysis (PCA) in the Spatial Autoregressive Moving Average (SARMA) Model for Poverty Modeling in the Sumbagsel Region, 2023

Output: Statistical modeling, spatial data analysis, and model evaluation using AIC.

Relevant Coursework: Statistical Methods, Exploratory Data Analysis, Database, Introduction to Data Science, Introduction to Regression Analysis, Introduction to Time Series Analysis, Multivariate Data Analysis, Introduction to Econometrics, Machine Learning and Modern Prediction, Geographic Information Systems, Spatial Statistical Computing, Statistical Quality Assurance, and Data Consulting.

WORK EXPERIENCE

Internship Program, Ministry of Manpower — National Archives of the Republic of Indonesia (ANRI) | South Jakarta November 2025 – May 2026

First Expert Statistician Position – Data, Information, and Archival Technical Services Unit (Pusdatinjastek)

- Managed over 5,000 data records and metadata in SIDATA, including data entry, inspection, verification, validation, and updates. Evaluated 476 subcategories and 140 data lists across approximately 20 work units to support the designation of 6 ANRI priority data items for 2025.
- Synchronized data between the ANRI portal and the One Data Indonesia Portal (Portal Satu Data Indonesia/SDI) and managed metadata in SIDATA and INDAH.
- Developed and mapped the Electronic-Based Government System (SPBE) Architecture using Bizagi, coordinated with PICs, and prepared administrative documents, including meeting minutes, official memoranda, invitations, attendance lists, reports, and activity documentation.

INTERNSHIP EXPERIENCE

Statistics Indonesia (BPS) Bengkulu City | Bengkulu City August 2024 – December 2024

Social Statistics Team

- Processed and validated approximately 1,000 survey data records using Microsoft Excel (IF, VLOOKUP, and FILTER), including PCL–PML data matching and anomaly checks on Sakernas, Susenas, and Podes data before further processing.
- Produced statistical tabulations and publication materials related to the Human Development Index (HDI), Labor Force Statistics, and Village Potential Statistics, and created infographics and thematic maps using Canva and QGIS.

ORGANIZATIONAL EXPERIENCE

Himpunan Mahasiswa Statistika (Himasta) March 2023 – February2024
Research and Development (R&D) Division

- Created and published approximately 50 pieces of content covering statistics questions, learning materials, and statistical concepts through HIMASTA's Instagram as part of the Research and Development program.
- Conducted weekly content recaps and evaluations to monitor the consistency and quality of published information.

Musyawarah Kerja Wilayah I HIMASTA se-Sumatera September 2023
Secretary – Public Relations and Secretariat Division

- Managed administration and correspondence, and coordinated information with participating universities and across divisions to support the implementation of the regional work meeting.
- Edited and distributed approximately 80 participant and committee certificates using AutoCrat, while documenting decisions and coordinating follow-up information across divisions.

Student Leadership Universitas Bengkulu September 2021 – December 2021
Participant

- Participated in a student leadership development program focused on communication, teamwork, self-management, and problem-solving through leadership training and group activities.
- Took part in interactive discussions, group exercises, and collaborative activities to strengthen leadership, communication, and teamwork skills.

TRAINING & CERTIFICATIONS

Certificate of Skill Specialization – SQL for Data Analysis June 2026
MySkill Learning Path: Data Science & Data Analysis

Microsoft Power BI September 2026
MySkill Learning Path: Data Science & Data Analysis

Python for Data Analysis September 2026
MySkill Learning Path: Data Science & Data Analysis

Google Looker Studio September 2026
MySkill Learning Path: Data Science & Data Analysis

Microsoft Office untuk Pekerja (Grade A) March 2026 – June 2026
Dsarea

Certified Online Course-Digital Marketing (DAMC) Data Analysis - RevoU October 2025
PT. Revolusi Cita Edukasi

Training Machine Learning, SWAN Statistics Consultant - PT. Angsa Statistika Indonesia November 2022

SKILLS

Technical Skills: Data Cleaning, Data Validation, ETL (Extract, Transform, Load), Data Processing, Data Management, Metadata Management, Data Entry, Data Tabulation, Statistical Analysis, Data Visualization, Exploratory Data Analysis (EDA), Spatial Data Processing, Thematic Mapping, Business Process Mapping, Report Preparation, Administrative Documentation.

Software Skills: Microsoft Excel, SQL (MySQL, PostgreSQL), RStudio, Python, Microsoft Power BI, Tableau, Google Looker Studio, QGIS, Bizagi, IBM SPSS Statistics, Minitab, MATLAB, Canva, Microsoft Word, Microsoft PowerPoint
